# Complementary activity

"United Europe" was an internship project, funded by the European Solidarity Corps, through the National Agency of Portugal, which aimed to develop personal and professional skills in young people, help them prepare for the job market, with multilingual skills, intercultural literacy and digital literacy. Young man with greater resilience and greater ability to solve problems.

The objective is to help these young people to grow and to know the values, spirit and European unity. This project also aimed to challenge and strengthen the local community, opening horizons to locals, who welcome interns with open arms, in a 12-month project.
